

MAP Growth Discussion Points

2018-19 Academic School Year

- What do my student's results mean?
- How do you use the results to guide instruction?
- How is the school using MAP Growth results?
- What can I do at home to help my student?
- What does a "RIT" score mean?
- Is my student improving over time?

As with any assessment, this is only one measure of a student's academic performance. It is only through *multiple* assessments (for example, teacher developed assessments, state and district assessments) that we are able to develop a clearer picture of a student's current level of performance as well as their growth over time.

Further information and resources for families and educators about this and all district and state assessments can be found on our website: mmsd.org/assessment
